

**LoRA:  $x \rightarrow A \rightarrow B \rightarrow \Delta y$**                       **Symmetric:  $x \rightarrow U \rightarrow z \rightarrow z \odot z \rightarrow P \rightarrow \Delta y$**

$x$

$A / U$

$z$

$z \odot z$

$\Delta y + \text{frozen } W_0 x$

Frozen projection  $W_0$  and bias remain frozen; blue stages are trainable adapter computation.
